EDUCATION

Gujarat Technological University

Master of Computer Applications (MCA)

2020 – 2022

Ahmedabad, Gujarat

SKILLS

- **Languages:** HTML, CSS, JavaScript, Typescript
- **Technologies and Libraries:** Node.js, Nest.js, Express.js, React.js, Next.js, Redux, AWS Lambda, JWT
- **Databases / ORMs:** MySQL, PostgreSQL, MongoDB, Redis / Sequelize, TypeORM, Mongoose

EXPERIENCE

Software Engineer

Moweb Technologies

March 2025 – Ongoing

Ahmedabad, India

- Designed and developed scalable **RESTful APIs** using Node.js and Nest.js for multiple backend services.
- Worked extensively on **microservices architecture**, enabling modular, maintainable, and independently deployable services.
- Implemented advanced **Redis caching strategies** for session management, query optimization, and high-frequency data access.
- Integrated **Meta (Facebook) and Instagram APIs** for authentication, media synchronization, and social data management.
- Built responsive interfaces using **React.js and Next.js** with code splitting and lazy loading for optimized performance.

Software Engineer

DPinfoSoft

Aug 2022 – Feb 2025

Ahmedabad, India

- Designed and implemented robust backend services using **Node.js, PostgreSQL**, ensuring transactional integrity and scalability.
- Integrated **Razorpay payment gateway** with secure transaction handling, webhook processing, and reconciliation workflows.
- Architected **microservices-based systems** to handle authentication, payments, user management, and reporting services.
- Implemented **Socket.io and WebSocket** for real-time data communication, notifications, and live system updates.
- Developed reusable **React.js components** with Redux state management, custom hooks, and memoization for performance optimization.

Junior Software Engineer

Solution Analysts Pvt. Ltd

Jan 2022 – Aug 2022

Ahmedabad, India

- Built scalable **RESTful APIs** using Node.js, Express.js, Nest.js, and Sequelize with optimized database queries for high-concurrency.
- Contributed to **React.js** frontend development with API integration using Axios, error handling, and loading state management.

PROJECTS

LBR Platform | *Node.js, Express.js, PostgreSQL, Stripe, React.js, Redux*

- Built role-based system for Super Admin, Brands, and Influencers with onboarding workflows and **Stripe** payment integration.
- Engineered dashboards using **React.js/Redux** with code splitting, virtualized lists, and optimized rendering for 10,000+ profiles.

Vprosper | *Node.js, Express.js, AWS S3, Razorpay, Zoom SDK, Google Maps, Next.js*

- Developed wellness platform with Trainer/User/Admin panels, integrating **Zoom SDK, Google Maps**, and **Razorpay/RazorpayX** for payments.
- Built SEO-optimized pages with **Next.js** using SSR, ISR, image optimization, and prefetching for enhanced performance.
